4 Convenient Locations - Begins January 2008\*

Phoenix - Pittsburgh - Providence - New York City

Designed For Professionals & Non-Professionals

- In Health/Mental Health Care Fields
- Wanting Alternatives for Family Healthcare
- Searching for Safer, More Effective Medicine

Homeopathy, a 200 year old system of natural medicine, is internationally recognized as an alternative and complementary therapy. Holistic, scientifically based, safe to use, and inexpensive—Homeopathy treats acute illnesses as well as chronic diseases. It is a complementary modality to other therapies such as herbal medicine, nutritional programs, acupuncture, and mind-body medicine.

Homeopathy has been recognized for its success in treating historic epidemics including flu, malaria, cholera and typhoid.

\*This six part series meets one Saturday a month for six months - January-June.

Register by December 10 for discounted tuition rate.
